

2018 Special Licences with Extra Tags

Drawn Applicants –Hunting Information

You have been drawn for a special licence hunt in a specific Wildlife Management Unit (WMU). Alberta Environment and Parks (AEP) is concerned about overpopulation of this species in this WMU. We are also concerned about the related problems of over-browsing; damage to ranges, crops, and other property; and even vehicular collisions with game animals.

To minimize these problems, it is important to harvest the appropriate number of animals. To achieve the harvest goal while maintaining acceptable hunter densities, **your Antlerless White-tailed Deer Special Licence will be issued with two tags**. The licence will be valid for two of the specified animals in the WMU indicated.

Thank you for your contribution to game management. Have a safe and enjoyable hunt.
